

ATS CONSULTANTS 2012

ROAD TO THE DERBY

P A C K A G E

37 RACES:

INFORMATION YOU WON'T
FIND ANYWHERE ELSE.

SPEED FIGURES
LIKE NONE OTHER.

FROM NOW THROUGH
SATURDAY, APRIL 28TH

While many associate ATS Consultants with excellence in football and basketball forecasting, our roots are actually in horseracing.

When we started in 1992, our team consisted of some of the sharpest minds in horseracing. Our success led to a demand by clients to provide investment services for other sports. And, so began the ascent of ATS Consultants into America's top-ranked sports consulting firm.

But, throughout our history, we've retained that same edge in horseracing forecasting. In fact, over the past decade, we've collected on nearly 63% of our Road to the Derby race selections – a winning per-

centage that far surpasses any other service – and rewarded our loyal customers with countless huge payoffs.

In fact, we get the best back stretch of information possible and know just how to turn it into a profit.

Information that you don't find in the betting public's "Daily Racing Form." Information that comes from deep within the industry. Our sources penetrate the backside of tracks around the country to stream difference-making information directly into our office. We're connected to trainers, clockers, grooms, veterinarians and even the hot walkers.

Now while it's impossible to know everything that goes on, we certainly get our hands on enough information each week to show a considerable profit for our clients. Enough profit, and even clout, that we our known throughout the industry as "The King of the Big Races."

Combine this exclusive information with the best numerical figures in the business, "The Chase Figures," and you have one powerful money making machine. The Chase Figures were originally resold to one of the largest betting syndicates in the country. But after years of tremendous success and careful thought, ATS Consultants has decided to reserve these powerful numbers for its paid subscriber base.

So join us from now all the way to the Kentucky Derby by taking advantage of our 2012 Road to the Derby Package. It will offer you golden opportunities to cash in with the biggest 3-year-old prep races. All races are usually Saturdays and Sundays so it's a perfect package whether you're a weekend warrior or want to experience firsthand how profitable the ATS Advantage is.
